

EVENT SAFETY BRIEFING (SCC Caledonian Room)

In an emergency, please exit the building via the five signed exits.

The three along the wall to my right lead to two Exits to the front onto Hudson St and one to the back alley.

The side exit at the stage end of the window wall leads down steps to 73rd Ave.

The wheelchair accessible exit at the far SW corner leads via a ramp to Hudson St.

The door to the underground parking is NOT a Fire Exit and may be locked.

The Assembly Point – Parking Lot by the Coffee Shop on the S.W. Corner Hudson St & 73rd Ave.

There are four internal Fire Alarms on the main floor (*point them out*): beside the door at the SW corner exit; beside the door at the SE corner exit (at the junction of the stage and window wall); in the foyer on the wall between the 2 staircases; and in the kitchen (just behind the door to your left as you enter). There are also alarms on upper and lower corridor walls.

The Fire extinguishers on the main floor are located: in the office just off the foyer; in the corridor between the foyer and the kitchen; on the Stage, near the exit steps; and 2 in the kitchen.

Please ensure that all shoes and bags are tucked well under the seats and do not obstruct exits or dancers.

Please inform the M.C. or one of our dance briefers of slippery sections of the floor.

Damp sponge trays are available for your use OR Slip Stop can be applied.

In case of any emergency, the M.C. is the designated coordinator who will call 911.

There is a telephone in the main foyer plus one in the care-taker's office.

Have fun and dance safely.
